EDUCATION

2023–Present Brainware University, Kolkata <i>B.Tech, Computer Science & Engineering</i>	8.79 SGPA
2021 Green Point Academy, Asansol <i>12th (Senior Secondary) – Science</i>	75.4%
2019 St. Ignatius of Loyola, Dhanbad <i>10th (Secondary Examination)</i>	85.0%

PROJECTS

Jun'26–Present **IGNIS — Full-Stack AI Fitness Web App** [Flagship Product · [igniswork.vercel.app](#)]

- Built a complete personalised fitness platform: 7-step AI onboarding computes BMI, BMR, TDEE, daily calorie budget, protein and water targets per individual profile
- Integrated Anthropic Claude AI as in-app health coach delivering personalised health summaries and daily workout motivation; engineered a 30-day adaptive calisthenics programme across 3 progressive phases (VITAE → KRATOS → ZENITH)
- Server-side anti-cheat date validation, 5-tier milestone badge vault, visual 30-day calendar grid, streak counters, and full PWA build (iOS/Android installable)
- Stack: Next.js 14 · React · TypeScript · Tailwind CSS · Supabase · Anthropic Claude API · Vercel

2024–Present **Ocular-AI — Smartphone Refractive Error Detection** [Lead Author · [ocularai.vercel.app](#)]

- Designed a software-only vision screening algorithm using smartphone screen-based photorefractive — no specialised hardware required; clinical validation on n=92 patients: Pearson $r=0.9857$, avg error 0.241D, 85.9% within $\pm 0.5D$ threshold
- Built in Python (OpenCV, MediaPipe) with real-time pupil tracking and 5-level severity classification; research paper authored, advancing toward clinical trials

Sept'25–Nov'25 **Vehicle Classifier — Real-Time Traffic Classification** — Samsung R&D, Kolkata

- YOLOv8-based CV pipeline classifying live traffic into 5 types (two-wheeler, sedan, SUV, bus, truck) built inside a production R&D environment at Samsung R&D Institute, Kolkata
- Integrated deep-learning model with REST APIs to relay live detection results to a reporting dashboard in real time

2024 **Market Sentiment Analyser — NLP Intelligence Dashboard**

- NLP pipeline classifying product reviews as positive/negative/neutral using HuggingFace Transformers & VADER; supports real-time analysis and CSV batch upload with interactive Plotly visualisation dashboards

INTERNSHIPS & TRAININGS

Sept'25–Nov'25 **AI & API Integration Trainee** — Samsung R&D Institute, Kolkata

- Completed structured AI & API Integration training programme at Samsung R&D Institute; delivered a production-grade Vehicle Classifier pipeline integrating YOLOv8 with REST APIs in a live engineering environment
- Worked alongside professional engineers on real-time computer vision systems, gaining R&D exposure to model deployment and API-based reporting pipelines

Feb'26 **Certification — Privacy Preserving Cryptographic Security** ISI Kolkata · MeitY/ISEA Phase-III

- 5-day government-funded intensive at the Indian Statistical Institute: Advanced Encryption, Cryptographic Authentication & Zero-Knowledge Proofs (MeitY, Govt. of India — ISEA Phase-III)

Jun'23–Aug'24 **Marketing Coordinator** — MyGlamm & Subsidiaries, Kolkata

- Market research across 50+ offline stores; drove 12% campaign ROI improvement and 20% team productivity gain through sales change management
- Contributed to 18% rise in customer acquisition and Rs. 2.5 Lakhs+ incremental revenue through lead conversion and CRO initiatives

Jul'21–Nov'22 **Sales Contractor** — Croma (Tata Group), Asansol

- Generated 40+ qualified leads/month via targeted retail outreach; 25% lead-to-sale conversion, surpassing the regional average by 10%

CERTIFICATIONS

Aug'26 **AI Application Development — Industrial Training** — IBM, Kolkata

- 1-month industrial training combining a 2-day on-site IBM Kolkata company visit with online training modules; certified 18 Aug 2026

Jul'26 **Arduino Edge AI Bootcamp** — Arduino

- Hands-on training on the Arduino UNO Q platform: programming MCU/MPU hardware and deploying physical AI models

Mar'26 **Deep Tech Entrepreneurship Foundations** — Qualcomm · L2Pro India (Score: 100%)

Apr'26 **Introduction to MS Excel** — Microsoft × Simplilearn

TECHNICAL SKILLS

Languages Python · TypeScript · SQL · JavaScript · C/C++ (Arduino & Embedded Systems)
Frameworks Next.js 14 · React · Tailwind CSS · Streamlit
AI / ML Machine Learning · Deep Learning · Computer Vision · NLP · YOLOv8 · MediaPipe · HuggingFace Transformers
Databases & APIs Supabase · REST APIs · Anthropic Claude API · API Integration
Security Advanced Encryption · Zero-Knowledge Proofs · Cryptographic Authentication
Tools Git · GitHub · Vercel · MS Excel (Advanced)

POSITIONS OF RESPONSIBILITY

- 2021–Present College Representative (Inter-College Management Events)** — *Brainware University*
- Led teams from the ~2,000-student Management department at multiple inter-college events, consistently advancing to competitive rounds
- 2025 Best Manager Finalist** — *X-INOVA'25, Hall of Fame Finals*
- Advanced to the Hall of Fame Finals in the flagship Best Manager competition, the most prestigious event at the fest
- 2024 Event Anchor & Public Speaker** — *Brainware University*
- Anchored CSE Freshers' Event and multiple college-wide functions; speeches recognised for confident stage presence and corporate communication
- 2019 Captain, School Basketball Team** — *St. Ignatius of Loyola*
- Led a 12-member squad in Inter-School Tournament competitions, building team discipline and strategic coordination
